RARI RAJ C

Gurugram, Haryana, India | rariraj95@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science graduate with 1 year 8 months of part-time professional Python development experience and hands-on experience building machine learning, deep learning, and Generative AI applications. Trained and evaluated classification models, deployed a Dockerized FastAPI inference service, and built a document-grounded RAG assistant using LangChain, FAISS, and Gemini API. Strong foundation in Python, SQL, data preprocessing, model evaluation, debugging, and collaborative Git workflows.

TECHNICAL SKILLS

Programming & Data: Python, SQL, OOP, Pandas, NumPy, EDA, data cleaning, feature engineering/preprocessing, visualization

Machine Learning & Deep Learning: scikit-learn, TensorFlow/Keras, classification, regression, SVM, CNN, transfer learning (MobileNetV2), model evaluation, precision/recall, F1-score

GenAI & NLP: Prompt engineering, LLM application development, RAG, LangChain, Gemini API, embeddings, FAISS vector search, text preprocessing

Backend, Cloud & Tools: FastAPI, REST APIs, Django, Streamlit, Docker, Render, Streamlit Cloud, AWS (Django project exposure), Git/GitHub, VS Code, Jupyter Notebook

Data Quality: Metadata validation, duplicate identification, quality checks, data accuracy and consistency

SELECTED PROJECTS

Waste Image Classifier | Python, scikit-learn, TensorFlow/Keras, MobileNetV2, FastAPI, Docker

- Built six-class waste classification pipeline comparing HOG/color-feature SVM, CNN, and fine-tuned MobileNetV2; used group-aware train/validation/test splits.
- Achieved 84.35% test accuracy and 0.8252 macro F1 across 377 held-out images; analyzed model performance across classes.
- Deployed Dockerized FastAPI prediction service with image upload, input validation, confidence scores, and error handling.

Live Demo | GitHub

PDF Question Answering Assistant (RAG) | Python, LangChain, Gemini API, FAISS, Streamlit

- Developed document-grounded Q&A pipeline using PDF parsing, recursive text chunking, embeddings, and FAISS similarity search.
- Generated context-aware answers with source references; implemented chat history, document hashing, and embedding caching.

Live Demo | GitHub

Resume Classification & Analysis | Python, TensorFlow/Keras, NLP, Gemini API, Streamlit

- Built resume text-classification model with bidirectional LSTM and attention, preprocessing, and model evaluation.
- Integrated Gemini API for prompt-based skill-gap analysis and feedback; deployed interactive Streamlit application.

Live Demo | GitHub

PROFESSIONAL EXPERIENCE

Quizlet - Content Contributor, Python Development (Part-time) | Oct 2024 - May 2026

- Developed approximately 50 educational animations using Python and Manim; debugged rendering, timing, and visual-layout issues.
- Collaborated through Git-based workflows, incorporated reviewer feedback, and maintained output quality and consistency.

Quizlet - Metadata Manager (Full-time) | Nov 2022 - Oct 2024

- Led metadata quality workflows, coordinated tasks, validated deliverables, and resolved inconsistencies with stakeholders.

Quizlet - Metadata Moderator (Part-time) | Sep 2019 - Nov 2022

- Validated educational metadata, identified duplicate records, and documented quality discrepancies.

Earlier Roles: HR Executive, Placewell Consultancies (Oct-Dec 2016); IT Sales Coordinator, Tech Forte Systems (Dec 2014-Dec 2015).

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science | Mahatma Gandhi University | 2014

Advanced Program in Data Science | Entri / NSDC | May 2026

Advanced Program in Data Science | Illinois Institute of Technology, US | May 2026
