SUMMARY

Aspiring Data Science Engineer with a strong foundation in machine learning, deep learning, data analysis, and statistics. Skilled in building and evaluating predictive models using Python, Pandas, NumPy, Scikit-learn, TensorFlow, and PyTorch. Hands-on experience in NLP, computer vision, and deep learning applications using Hugging Face Transformers and modern AI frameworks. Proficient in data cleaning, preprocessing, feature engineering, and applying machine learning algorithms to solve real-world problems. Seeking an entry-level Data Scientist role to leverage technical and analytical skills in developing impactful AI-driven solutions and supporting data-driven decision-making.

SKILLS

Programming Languages: Python, Django, HTML, CSS, SQL

Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, LangChain

Tools: Jupyter Notebook, Streamlit, Matplotlib, Seaborn, Google Colab, Git, Flask, Excel, FAISS

Data Analysis Techniques: Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization

Machine Learning: Regression, Classification, Clustering, PCA

Deep Learning: Neural Networks, NLP, Transfer Learning, Hugging Face Transformers

Generative AI: RAG, Prompt Engineering, LLMs, Google Gemini API, Langchain, Embeddings, FAISS

Soft Skills: Analytical Thinking, Communication, Attention to Detail

CERTIFICATIONS

Advanced Program in Data Science - Illinois Institute of Technology, US

Advanced Program in Data Science - Entri, NSDC

- Completed an end-to-end Data Science program, gaining hands-on experience in Machine Learning (Regression, Classification, Clustering, and Ensemble Methods), Deep Learning (ANN, CNN, RNN, LSTM), NLP (Hugging Face), and Generative AI architectures (GANs, Diffusion Models).

PROJECTS

AI-Powered Multimodal Resume Analyzer | Python · TensorFlow · Keras · NLP · Gemini AI · Streamlit

- Built an end-to-end multimodal AI system that classifies resumes into 43 job categories using a BiLSTM with a custom Bahdanau Attention mechanism.
- Improved resume classification accuracy from 47% to 88%+ through custom NLP preprocessing, feature engineering, and attention-based learning.
- Integrated Google Gemini 2.5 Flash to generate ATS scores, skill-gap analysis, resume improvements, cover letters, and career recommendations.
- Deployed the application on Streamlit Cloud with secure API management, retry logic, and downloadable reports.
- [Streamlit URL](#) [GitHub](#)

Enterprise RAG Assistant • LangChain • Google Gemini • FAISS • Streamlit

- Developed an end-to-end Retrieval-Augmented Generation (RAG) application for conversational querying of PDF documents.
- Built a semantic retrieval pipeline using PDF parsing, recursive text chunking, Gemini Embeddings, and FAISS vector search

- Integrated Google Gemini 2.5 Flash with LangChain to generate context-aware responses strictly grounded in retrieved document content.
- Implemented vector database caching and document hashing to eliminate redundant embedding generation and improve response efficiency.
- Enhanced user experience with chat history, source citations, document upload, error handling, and responsive Streamlit UI.
- Deployed the application on Streamlit Cloud with GitHub-based CI/CD and modular production-ready architecture.
- [Streamlit URL GitHub](#)

E-Shop Price Predictor | Machine Learning Regression · Django

- Developed a regression model to predict e-commerce product prices using product features.
- Compared Linear Regression, Decision Tree, Random Forest, and Gradient Boosting, selecting Random Forest as the best-performing model.
- Evaluated model performance using MAE, RMSE, and R^2 , and deployed the application using Flask.
- [GitHub](#)

WORK EXPERIENCE

10/2024 - Present

Content contributor, Quizlet

- Developed animated educational videos using Python and the Manim library.
- Collaborated with content and engineering teams to transform learning scripts into interactive visualizations.

Metadata Manager, Quizlet

11/2022 - 10/2024

- Led and mentored a metadata team, ensuring high-quality textbook metadata and timely project delivery.
- Planned project execution strategies, monitored quality, and collaborated with stakeholders to achieve client requirements

Metadata Moderator, Quizlet

09/2019 - 11/2022

- Managed textbook metadata validation, duplication analysis, and quality assurance for large-scale educational content.
- Resolved metadata issues and maintained accuracy through collaboration with client content teams.

HR Executive, Placewell Consultancies

10/2016 - 12/2016

- Sourced and screened candidates through job portals and conducted initial interviews.
- Coordinated candidate communication and maintained recruitment documentation throughout the hiring process.

IT Sales Coordinator, Tech Forte Systems

12/2014 - 12/2015

- Managed customer orders, coordinated sales operations, and ensured timely delivery.
- Supported the sales team while providing customer service and order tracking.

EDUCATION

B.Tech in Computer Science | Mahatma Gandhi University
